The Landscape Aesthetic of Lakefront Park

Lakefront Park: Naturalesque Tradition/English Landscape Style

Lakefront Park: Naturalesque Tradition

Beautiful but completely artificial. Agricultural progression was Woodland to Farmland with Hedgerows and Trees

Lakefront Park: Naturalesque Tradition

Clearing the land: Gaelic: Fuadach nan Gàidheal, the “Eviction of the Gael”, 18th /19th Centuries

1792: known to Gaelic-speaking Highlanders as the Bliadhna nan Caorach “Year of the Sheep”

Lakefront Park: Naturalistic Tradition

Sheep eat saplings, shrubs & grass to the nub leaving only larger mature trees & few hedgerows

Capability Brown turned it into an Exquisite Aesthetic

Lakefront Park: Importance of the Park

Lakefront Park: Dedicated in 1867

Lakefront Park: Barriers in the Park

“A good park should allow you to both see and walk through it. In many new parks, I feel like a victim of planning, forced to navigate an obstacle course just to get through”.

Lakefront Park: Engineering Recommendation

- Reinforce the toe of the bluff and to add wick-drains
- Wick-drains carry water from the top directly to the bottom
- Relieve water pressure acting on the face of the bluff
- Reinforce the toe of the bluff to stop the bluff from sliding
- Improve existing storm sewers; help carry water away from the bluff
- Limit infiltration.

Board Discussion Points

- What do you think of the Plan?
- Should we keep or takeout the Tennis Courts?
- Should we do a traditional playground, playground pods or no playground?
- Which entrance points do you like best?
- Any other items regarding the plans the Board would like to discuss?

Something To Think About

- Should we do Lakefront Park in phases?
\$455,000 budget for phase 1
- Should we seek Private donors for this project?
- Should we do a referendum? We could include the cost of Bluff repairs and Lakefront Park renovations at the same time.
